

City of Lincoln 2005 Stormwater Bond Issue Project 702257

Fact Sheet Brentwood Estates 70th & A Streets

The City of Lincoln's Watershed Management Department has identified several areas around the City where minor maintenance or replacements would help improve existing drainage conditions. One of the projects identified is in the vicinity of 70th & A Streets south of Brentwood Estates retirement center. This project reconfigures the City of Lincoln storm sewer to pick up additional runoff from the Brentwood Estates property. Kirkham Michael is currently designing these projects, and it is anticipated that construction will take place in the summer of 2006. Funding for this project is provided by the 2005 Stormwater Bond Issue. If you have questions about this project, please feel free to contact either of the project representatives listed.
